(54) **A photo-setting colored filter compositions, a color filter, a process for the preparation thereof, and a curable resin composition**

(57) Disclosed are a photo-setting colored filter composition, a color filter, a process for the preparation thereof, a curable resin, and a curable resin composition. The photo-setting colored filter composition of the present invention has an excellent photo-curability, miscibility in the composition, and developability.

The curable resin composition is excellent in stability of the composition, tackiness, developability, sensitivity, anti-strippability, and hydrolysis resistance compared to conventional curable resin compositions.
